

Areola Tattoo

Aftercare

1. Leave waterproof bandage in place for 24 hours. After 24 hours gently remove clear bandage. Do not be alarmed if there is a small collection of blood or fluid inside your bandage, **THIS IS NORMAL!**
2. Wash the tattoo gently with clean hands and mild, unscented soap two times a day. Avoid using washcloths, towels, sponges, or loofahs, which can harbor bacteria.
3. Apply a thin layer of Aquaphor to the tattoo and cover with the provided nonstick dressing pad. Repeat this process twice daily for 5 days.
4. After 5 days you may switch to a fragrance-free body lotion/cream.
5. Don't pick, scratch, peel, slap, rub, or irritate the tattoo.
6. Don't soak the tattoo for two weeks, and avoid swimming, hot tubs, and exposing it to direct sunlight for at least three weeks. After three weeks, you should use sunblock to protect it from the sun's UV rays.
7. Enjoy your new tattoos!
